H. Woodward Esquire

Acting Collector & District

Magistrate, Kaiama

To,

H. Frick, Keyser Esquire

Acting Commissioner

&c &c

Kaiama 12th August 1890.

Sir,

I have the honor to

submit the Annual report

on the Administration of this

District for the year ending

30th June 1890. I have been unable

to get a correct census of the

population, but from

the returns I have received

I estimate the population

of Kaiama at 39107 / 10. 42,840

I have to this

the

the charge of the District was held by the following Officers:—

Mr. E. G. Hathaway C.S. — up to 15th April 1890.

" Davidson C.S. 16th April to 16th May 1890

" Mr. Hervey C.S. 17th to 31st May 1890.

2. The Officers who have been at the Collector's Head Quarters during the year under report are entered in the Head Accountant Collector the Assistant Collector the Assistant Deputy Collector in which their Services were rendered is shown in Appendix A.

3. The Administration Reports of the two Officers in charge of Divisions are forwarded herewith accompanied by my Remarks on each.

3A. Messrs Davidson, Henry and Hudson Assistant Collectors have all kept riding horses.

4. - General Condition & Resources.

Rainfall at Headquarters

Average of preceding 5 years		Current year		Rainfall. The records were on the Whole good one. The rainfall was unusually heavy on the coast though above the Ghauts, it was not in excess of the average. The monsoon burst at Kannara on 3rd June and rain continued to fall with little intermission until the
Inches	Cents.	Inches.	Cents.	
125	43.	179	89	

flood all over the District though the
same damage was caused in low-
lying rich lands by excessive rain.

5. Rural population.

According to Village Census, population has increased about 6½ p.c. The rates of births and deaths respectively are 33.71 and 31.21 per thousand these per centages are higher than those for each year. Especially of deaths which are nearly equal to births. To some extent the higher ratio may be due to improvement in Registration, but the year was abnormally unhealthy. Mr Blatmond

July 1889.	July 1890.	Births	Deaths
12466.	12634	13998.	12960.

Mr Blathwayt examined the
Registers in the villages Although
the work was carefully done
by Public Health.

The year was exceptionally
unhealthy. Malarial fever, if
not of a severe type was very
prevalent. There was a good deal
of Small pox & a few cases of
Cholera. The autumn saw an
Influenza Epidemic seriously
hampered both public & private
business. Only a small per-
centage of cases was fatal &
these generally were consequent
upon prostration from which
the old & infirm were unable
to recover.

The total number of persons attacked by small pox was 3244 with 403 deaths against 844 Cases and 96 deaths last year. These figures speak well for the effects of vaccination. There were 43 Cases of Cholera in the Gella pur & Supa Talukas. In each Taluka the outbreak began in a village bordering on the Dharwar District where Cholera was rife at the time. It may therefore be reasonably inferred that it was imported from that District.

The Collector visited five out of the Eight Dispensaries in this District. Those at Honavar, Haliyal and Supa were not inspected.

Inspected. Mr. Blackburn's Accounts have been satisfactorily kept. The Hospitals were inspected. The Hospitals & to reduce the attendance. That of the Dispensary Committee have complained that the fees charged are too high. The Dispensaries at Sirsi and Kumta are in charge of Assistant Surgeons. The Civil Hospitals at Karwar & Ankola in charge of the Apothecaries under Surgeon Major Howell and latterly under Assistant Surgeons Dixon and Gupinath.

The total number of indoor

new authority patients treated
in these several Dispensaries and
the Civil Hospitals was 802 and 6219
respectively 910 & 37864 Contagious the
Act was put in force in several
Cases of Malarial fever in some
of the large towns, but probably
no satisfactory reason can be
given for fluctuations of this
kind. They depend very much
on the confidence people repose
in the medical officers.

7. Agricultural Stock.

Year	Cattle	Horses & Ponies	Sheep & Goats	Carts	Ploughs	The figures show a de-
1889.	90.	28063.	337.	6806.	3739.	46453. crease under
1888.	89.	282926.	419.	5148.	3775.	46228. all heads ex-
						cept ploughs.

Cattle disease prevailed with more

were received throughout the
Protectorate. The total number of
Natives was 3442 of which 2831 were
Males, against 1139 & 788 last year
[illegible] and mostly Natives and Indians
Cattle are not bred in Barotse
and sheep for slaughter are im-
ported from Matabeleland.
A gradual decrease in cattle may
be expected, as trade from the
Upper Zambesi & Matabeleland } and the used up stock is not replaced
8. The price of labour

Years	Wages per month Skilled	Wages per month Unskilled	Cost per month Skilled	Cost per month Unskilled	Remarks
1889.	9s. 8d. to 12/6	2 Rs. to 6 Rs.	1 Re. 6 annas	12 annas to Rs 3.	Store rations Change to Export Labour
1888. 89	8s. to 12/6	2 Rs. to 6 Rs.	1 Re. 6 annas	12 annas to Rs 3.	Continues to be Export

Some in this District

immigrants from South Central Africa

Goa quoins in the fair season and
fat plenty of cash in the office for
above the ghauts for public Works.
Masons & Carpenters from Goa &
Ratnagiri also in demand.
The wages of skilled & unskilled labour
are considerably high. The average
earnings of an ordinary coolie are
four annas & a carpenter, double
& upwards of 12 annas a day. There is
always difficulty in getting carts for
hire. They are few in number and
usually belong to private owners.
Boats are plentiful on the coast
and their rate of hire is moderate
per [illegible]. The prices of produce are
given per Candy. Wheat which is im-
ported from Bhaunagar and other
districts was slightly dearer, while

Rice

Rice — the staple food of the people and other food grains are cheaper than last year.

Taluks	Quantity per rupee per Standard Seer. On March 31st 1889.		On March 31st 1890.	
	Seers	Tolas.	Seers	Tolas.
Wheat	12.	70.	12.	—
Dal	10.	56	11.	40.
Rice (Common)	11.	65.	12.	40.
Nachni or Ragi	23.	69	25	

Dhal is imported and so is Nachni, though the latter is grown to a small extent in Kanara. The general decline in prices is due to the plentiful harvest.

The garden produce of the above Ghaut Talukas was sold at the following rates:-

Arecanuts. Rs 80 to Rs 100 per Candy

Rajahmundry Rs 140 — Rs 200

Cuddapah Rs 30 to Rs 50 per annum.

10. Takavi Advances.

The two abstracts in a. t. c. last year's report were disposed of and the amounts asked for were Guntur Rs 500 in one case and Rs 100 in the other

Year	Suit & Cattle Fee	Permanent improvements Rs.
1888-89	"	
1889-90	"	600

The money is reported to have been usefully employed. No further applications were received. There has always been a difficulty in inducing the ryots to take advantage of the Takavi Rules. Though perhaps no systematic effort has yet been made to explain their object and scope to the

ryots

by the generally. Still orders have been issued from time to time by Collectors with this object in view. In wide areas of the Districts ~~[illegible]~~ obtaining to supplement the scanty rainfall. Here no such want is felt. Harvests are plentiful and the conditions that make applications so numerous in the Deccan are here entirely absent.

II. Manufactures and Trade.

There are no manufactures of any importance. A few workers in Sandalwood at Kumta, Honawar Siddapur and Sirsi and some Chinamen at Kárwár who make cane chairs boxes and other small articles; comprise all under this category. The demand even for these is locally small and

Copper Rs 140—5—, Tin Candy

Cardamoms Rs 38 to Rs 54 per maund.

10. Takavi Advances.

The two applications mentioned in last year's report were disposed of and the amounts asked for were Rupees 500 in one case and Rs. 100 in the other.

Year	Sec. 2 — Cattle Fea.	Permanent improvements Rs.
1888-89	"	
1889-90		600

The money is reported to have been usefully employed. No further applications were received. There has always been a difficulty in inducing the ryots to take advantage of the Takavi Rules. Though perhaps no systematic effort has yet been made to explain their object and scope to the

ryots

Myrobolans generally. Still orders have been issued from time to time by Collectors with this object in view. In rare cases only of late advances are solicited ~~[illegible]~~ to supplement the scanty rainfall Here no such want is felt. Harvests are plentiful and the cultivators that make applications to Ramdroog in the Deccan are here entirely absent.

II. Manufactures and Trade.

There are no manufactures of any importance. A few workers in Sandalwood at Kuntee, Honawar Sidapur and Sirsi and some Chinaware at Kárwár who make cane chairs boxes and other small articles; comprise all under this category. The demand even for these is locally small and

the Godavery & Bandalamudi Cocoanuts are fast drying up.

A comparative table showing the trade done in Cotton and the principal [illegible] of the Districts, this and last year at the ports of Karwar Kumta, and Honawar is given below. The figures show that cotton is no longer exported from Kárwár at all, and that the quantity shipped from Kumta is insignificant contrasted with last and preceding years. The Railway has superseded the sea route. Myrobolans the produce of the Kanara forests show an increase, but the shipments from Kárwár are light because the consignments from Supá now

P.C.

go by Railway instead of by sea
Exports of Areca nuts have increa
but the increase is far below the
Standard of former years.
The decrease in pepper and carde-
-moms is due to the same causes.
There is little room for doubt that
the trade of these ports will gradua
be absorbed by the Railway. Som
Station merchants and brokers ha
left the District altogether. And
others have found it necessary
to establish themselves in other mode
of livelihood. The gradual dec
in trade is evidenced by the year
recurring decrease in the proceed
from Income Tax. Sheppard's Steame
touched regularly at the principal

ports along the Coast during the
fair Season to the great convenience
of the public generally and of traders
in particular.

12 Fairs

The two great annual fairs at Gokarna and Ulvi passed off quietly. There were no disturbances and no serious fights occurred. No outbreak of disease occurred although some cases of small pox were reported at Gokarna. The usual Police and medical arrangements were carried out and the temporary Municipalities looked after the conservancy of the towns. At Gokarna the pilgrims numbered about 20,000 and at Ulvi 10,454. The trade is chiefly in cloth, copper and brass ware, and is estimated to have been somewhat larger than last year. The approximate figures

figures are given in the Margin.

	1898 89.	1899. 90.	There were 69
	R.	R.	
Gokarna	35,000	38000.	
Belvi	8000.	15900.	minor fairs

held at different
places in the District. They
no special remarks.

13. General Condition of the people.

The general condition of the people
who are almost purely agricultural-
ists on the whole favorable. During
the excellent harvest prices of
food grains were low and no floods
nor other similar calamity of a
serious nature have to be recorded.
No permanent emigration nor diminu-
tion of any class of the popu-
lation appears to have taken place.
The advent of gangs of Coolies in the

fair season & work in the Spice-
plantations alone thanks to merely
temporary. They return to their
homes - chiefly in South Canara -
before the rains. The land holders are
for the most part well-to-do Brahmins
& Bhanis who sublet to the
actual cultivators. No tendency
for large holdings to expand at the
expense of the smaller is observable.
The lands thrown up are generally
of an inferior kind which owing
to their position in distant localities
surrounded by forest, don't repay
cultivation. The best lands are
never resigned. The tenants borrow
from their land lords and repay
from the produce of the land. The

Cont. Page

burden of debt is not serious.

The demand for labour is constantly in excess of the supply. The rate of wages is high and so the labouring, urban & rural may be considered well off. So far as I can discover, now that the intentions of Government in the matter of Khumri cultivation have been made plain, the cultivators have become reconciled to the change & have begun to give their attention to the ordinary form of tillage. It does not appear that any modification of the order passed on this subject is called for.

III Revenue

(a) Ordinary Administration.

14. The Jamabandy Settlement was effected in all the Talukas of the District within the prescribed date — 15th March — The Collector did the Jamabandy of Siddapur and Ankola Talukas respectively in the 1st and 2nd Assistant Collectors charge on the dates specified below.

Talukas.	Date of Commencement of Jamabandy	Date of Completion.
Sidapur	18th February 1890.	22nd February 1890.
Ankola,	18th November 1889.	23rd November 1889.

All the Talukas have come under the Collector's personal supervision during the last four years. Next year the towns of Supa and Karai

the Jamabandis of which Talukas were done by the Collector last in 1886-87. Will recur in 15.

The results of the Settlement are as under:—

Year	Land Revenue Remissions	Alienation	Revenue for Collection	Local Funds Remissions	Revenue for Collection	Interest	Total for Collection
1887-92	" 4973 8 6.	" 9 7.	" 6169.4 7.				" 1038378. 8. 4.
1892-97.	" 5054 7. 9.	1843 7.	" 6530.12 2.				" 1018404. " 9.
Increase	" " "	11535 6.	" 432.1 7.				" 11974. " 7.
Decrease	" 76. 152.	" " "	" " "				" " "

The land revenue settled for collection gives an increase of Rs. 11535. which is chiefly due to the introduction of Survey rates in a portion of Sholapur Taluka and in a minor degree

degree to the levy of the enhanced rates in Sidapur Sirsi and Honawar Talukas, where under the orders of Government an abatement of the full assessment had previously been made for the first few years after the settlement.

Remissions have been shown in detail under the next para. They do not appear in the above statement, because they were granted subsequent to the Jamabandy

Alienations - There is a decrease under this head of Rs. 76-15-3 which is owing to the assessment on land held by the Jangamallat of Banawasi being commuted into a cash payment under the authority of

Government

Government Resolution No. 7369
dated 6th November 1888.

16. Remission amount to Rs. 6393.
and include the loss of Rs 26
assessment on land held by the
deceased widow of the Raja of
Bilgi in Sidapur Taluka. The
sum sanctioned by Government
for remission in favor of the widow
is Rs 220.12.2 representing the old
assessment but at the recent
Survey this assessment has been
revised to Rs 269.4.. A separate
reference will be made to you
whether the widow or Government
should take the difference. The
balance of Rs 280.9.9 is made

u/s

up of the following items.

Failure of crops ... Rs. 26- -

Poverty ... 163. 12.

Minors Estates ... 13. 4-

& auds forfeited & resigned ... 29. 3.

Loss by fire ... 28. 1.

Rs. 282 1. 1

Special Concessions.

Abatements of the full assessments were made in the Talukas of Honawar Sirsi and Sidapur under the authority of Government Resolutions Nos 5573 of 1884 and 7801 of 1886 aggregating Rs 9159. 7. 4. and were distributed as follows.

Honawar ... Rs 1224. 10. 7

Sirsi ... 1171 13. 1.

Siddapur ... 6762. 15. 8.

Rs. 9159. 7. 4

These abatements year by year diminish and are gradually extinguished so the lands to which they relate are subjected to the higher rates of assessment.

17. Abkari.

The introduction of the still head only and guaranteed minimum revenue system into the above Giant Talukas of Yellapur (including Mundgod Pela) Sirsi and Siddapur as sanctioned in Government Resolution No 3364 of 7th April 89. It was proposed to locate the Distillery at Sirsi, but that idea has since been abandoned owing to the amalgamation of the farms with

with stock of Dharwar, Shenè liquor is brought to the depôt of this District. The circumstances under which the late farmer's license was revoked by reason of his refusing to supply the only on liquor issued to him from the Distillery have been fully reported to the Commissioner of Abkari & by him made known to Government. Up to the close of the year departmental arrangements were made for the sale of liquor to the licensed shopkeepers, the Spirit being obtained from the Dharwar farmer at cost price & the duty credited to the Abkari revenue of this District. - Government in Resolution No. 4979 of 17th July/90 take

have called for explanations re
-garding certain minor irregularities
connected with the disposal of these
farms.

For the next two years the
whole of the above-blank portion of
the District has been amalgamated
with the Dharwar farm under
Mr Nowroji Framji, who has bound
himself to pay up the liabilities
of the late farmer to Government,
as soon as an accurate statement
of account can be prepared.

Some important changes affect
ing the sale of rum to-day in the Coast
Talukas were sanctioned by Govern
-ment Resolution No 3524 dated
24th April 1889. The privilege of

Selling

Selling rum, toddy has been with
drawn from the Spirit farmers. Two
Separate licenses are now issued for
the Exclusive sale of toddy. Other
Changes are the grant of free licenses
for domestic consumption only to own
of trees to tap not more than ten
trees on payment of the tree tax, &
the issue of licenses to approved
persons to sell toddy at the trees tapped
The rate of tree tax for cocoanut
and wild palm trees has been in
creased from Rs. 4 & 2 to Rs. 6 and 3
respectively. Under this system 81
toddy & hoppa licenses & 7 tree foot
both licenses were issued during
the year. The fees amounting to
Rs. 10,900. Above shants, the toddy

to take effect from 1st April 1890

Cocoanuts

arrangements remained undisturbed.
The farms were sold Talukwar and
the fees total Rs 1145.

The outstill licence system was
in force throughout the year in all
the Coast Talukas. The introduction
of the Still head and guarantee -
minimum revenue system has been
sanctioned by Government here also,
and the farms sold under that
system for 1890-91. Public Distilleries
have been established - one for each
Taluka - and a special Establish
-ment provided. The trees will
probably be larger in future years
when the somewhat complicated
details of the new system are
more fully understood.

H.

The total revenue of the year as detailed below was Rs 204349 as against Rs 198602 in the preceding year or Rs 5747 increase

Still head duty above that

Taluk Rs. 125000.

Liquor farms Coast Talukas 19510.

Licence for toddy shops.

Above ghat Rs 1065

Coast 10900. " 11965

Free tax on trees tapped for distillation Coast Talukas — " 18104.

Free tax on trees tapped for sale of raw toddy

Above Ghat Rs 10090.

Coast " 19680. " 29770.

Total Rs 204349.

The outstanding balance of previous years noticed in last years report has all been collected. The

D

of the above Shamb liquor farms for the year under report. Which the Current years farmer has agreed to pay &c will be adjusted accordg as the accounts of the farms while under Departmental manage-ment have been settled.

Seven licences for sale of Europe liquor and one Railway refresh ment room license were issued, the fees amounted to Rs 450.

The Revenue on account of Opium and Ganja bhang & chirs which are farmed out annually amounts to Rs 646 & Rs 4091. respectively as against Rs. 736 & 3832. for the previous year. The consumption of Opium is very small in this District.

We

The Abkari preventive Establish-
-ment was strengthened by the addition
of one Inspector, 4 - 2nd Inspectors
one Head Constable & 14 Constables,
Sanctioned in Government Resolu-
-tion No. 5749. of 4th August 1869. The
total strength of the Abkari Staff
is now 2 Divisional Inspectors
14 - 2nd Inspectors 2 Head Constables
and 36 Constables at a monthly
aggregate cost of Rs. 955. As the Staff
they appear to have done their work
well. Moreover since July an Inspec-
-tor with one Head Constable, 6 Constables
and one Sweeper have been enter-
-tained for each of the new Distillery
in the Coast Talukas which are
to start work on 1st August. There

were

were no important cases of smuggling except one in which the importer of 58 bottles of wine from Goa was convicted of attempting to evade payment of the duty. The conviction however was quashed by the High Court. There were a few cases of illicit tapping and some of breach of conditions of license.

18. The progress of the realization up to June 30th of the Land Revenue of the District not including revenue assigned to Local Funds is credited to P. W. Department is shown in the following table.

Items	Demand outstanding 31 March	Collection up to 31st March	Balance 31 March	Collection from 1st April to date	Balance
Land Revenue	969664 2 10	752853	79211	3006	210162 7 10

1117 10 2

If the balance more than Rs 600/- have since been effected measures are being taken to realize the rest. It is probable that none will remain uncollected.

There are no outstanding balances of former years.

19. The amount of processes which it has been necessary to issue up to 30th June in order to recover the above may be inferred from the particulars filled in the table over leaf.

There is a slight decrease in the number

number of notices issued, while under the head of penalties and distraints it is considerable. On the other hand forfeitures and sales of occupancies show a slight increase. Of the 2541 notices, 2078 were issued in the Coast Talukas, the greatest number being in Honawar and Kumar - 1167 + 537 respectively - The majority of the penalty cases are also credited to the same Talukas. The distraint cases were 9 in Kumar and two in Kumta, none at all having occurred in Bhatkal.

The main reason why the revenue is collected above charts with such comparative ease and punctuality is that there the land holders themselves are the cultivators and do

the Coast the actual tillers of the soil are usually Christians. It may however be inferred from the figures given that some Caste has been displayed by the village and Taluka Officials of Kanara and Honawar, and I am issuing orders on the subject.

20. Forests.

The receipts of the year are Rs 7,47,102-14-2 as against Rs 421.226. 12. 8. for the previous year or an increase of Rs 25876. 1. 6. With the completion of the Railways the demand for sleepers was ceased and the general depression in the timber trade is ascribed to the effects of "influenza

Under miscellaneous revenue the sale of bird-eas fetched Rs. 56903-10-0 Soap nuts Rs. 1998. 4. 11. and of Brazil, Rs 22691. 8. 4. The figures last year for the three items are Rs. 44514. 15. 3, Rs. 154. 12. 6. and Rs. 22157. 13. 2 respectively

Expenditure was Rs. 80,10 less than in the preceding year and is no doubt due to the reduced scale of operations in the timber trade.

The net revenue for the year after deducting expenditure amounts to Rs 4,27,503. 4. 7 as against Rs 3,51524. the year before, and Rs. 4,57,644 in 1887. 88. The saw mills at Kamigeri which were closed last year have now been sold. The annexed table shows

Shows the extent to which free grants of wood have been made under the permit rules in force.

Year	Villages Chowris	Villages Temples	Agricultural Houses	Fishing Houses	Total
	Cases	Amount	Cases	Amount	Cases	Amount	Cases	Amount	Amount

During the year the Forest Settlement of 21 villages in Honawar 16 in Kumta, 36 in Sirsi Taluka was completed and sanctioned by Government. Proposals for the Settlement of Yellapur Taluka and additional villages of Sirsi are in course of preparation by the Settlement Officer. Maps of 53 villages were notified

notified under Section 4. of 2 villages
under Section 19 of 21 villages under
Section 28 of the Forest Act. Apparty
of Surveyors under Mr. Wingate com
pleted during the year the survey
of a line more than 45 miles long
separating Received from Protected
Areas in the Halijal Taluka. Field
books giving particulars of survey
and boundary marks for 116 villages
of Halijal Taluka Division have
been prepared for the use of the
Divisional Forest Officers and maps
showing the line of division between
Reserved & Protected Forests were
issued to Village and Forest Officers

A Committee was held at
Gallapur in the month of February

do

under the orders of Government to draw up revised rules regarding Balla land, grazing & forest rights generally. The Committee consisted of the Collector, the Conservator of Forests and the Forest Settlement Officer, and the rules framed by them were submitted to Government.

Kumri has been given out only in a few villages of Ankola & Honavar Talukas on a system of rotation. No fresh assignments were made in the above Talukas.

Now that Mr Wingate has completed the Revenue Survey work of the District, he will be free to direct all his attention to the very important work of Forest

- Settlement

Settlement which should make rapid progress during this & coming years.

21. Income Tax.

A detailed report on this subject has been submitted separately. There is again a falling off in the assessment & final demand which is attributable to the gradual decline in trade, from causes which have already been noticed.

The Assessment lists were sanctioned in Government Resolution No 2628 dated 8th July 1889. Originally 746 persons were assessed at Rs 15162 1. 11. Subsequently 11 persons assessed at Rs 164 were added making in all 757 persons assessed at Rs 15266. The following table gives the results

J

of the tax compared with those of the previous year.

Year	No. of persons assessed	Gross demand	Final demand after disposal of objections & other items	No. of persons assessed	Amount	Penalties	Amount collected	Balance
1888.89.	796.	16294.	708.	14832	20	14667		1752
1889.90.	757.	15266.	684.	14049.	11.	13900.		160.

The Assessments for the year under report show a decrease of Rs 1028 & the final demand of Rs 783 a.o. Compared with the figures of the year before. Reductions aggregate total Rs 1217 as against Rs 1462 last year.

Of the balance Rs 85 has since been collected & the remainder will have to be written off as the defaulters cannot be found.

Rs

No extra Collecting Establishment has been Entertained, but the work was carried out by the Ordinary Revenue Establishment.

There have been no cases brought to light of evading payment of the Tax.

22. Minors Estates.

Full information regarding Minors Estates is given in the annexed Statement. No new minors were added to the list during the year.

Estate No 11 the ownership of which attained majority last year, was made over to him. The owner of Estate No 8 came of age during the year under report and steps are being taken to make

over the property of him. Estate No 2.
remains under the Official Manager
- ment the deceased minor having left
two small sons & his widow having
[redacted] had Issue [redacted] during coverture
Should it continue. In regard to
No 10, the eldest brother came to
see me also, but his brothers are still
minors. His application to the Pro-
- bate Court for the Executorship of the
property is still pending & the
Firm in connection with this estate
their irregularities were discovered
and reported to you in detail.
Government have recently communi
- cated their orders on the subject
in a Confidential form.

- ants

a reference to the table above. It

was found necessary to fine 36 patils

and 22 Shanbhogs, chiefly for dis-

obedience & neglect of boundary

mark inspections. Two Shanbhogs

and two patils were dismissed for

protracted absence from their duties

without leave, while two patils

suffered the same punishment on

suspicion of being implicated in

Crime

Crime. The village Establishment
is purely Stipendiary in Kanara
and there are no Watchmen. The
per centage of persons punished is
small and speaks well of the manner
in which the village Officers generally
discharged their duties. In some few
cases it is found difficult to secure
witnesses for the proof of petit crime
& the smallness of the scale Emolu-
ments especially in places such as
Yaisappa. where the village is
small and the visitors numerous.

24. The Taluq Accounts Office &
Record-room were Examined in
December 1887. The result was
communicated to the Deputy Collec-
tor and his Explanations thereon —

necessary were received and recorded.
The Account office appears to work
well and ~~punctually~~. The Record Room
is in good order, but a large number
of Revenue B Papers await destruc-
tion. Now that the Survey and Settle-
ment of the District is finished, there
is nothing to prevent their work being
taken in hand vigorously. The Catalogue
of books and list of dead stock
Articles have been written up to date
and are all forthcoming. The
Assistant Collector, the Treasury De-
puty Collector, the Superintendent
of Police respectively of their
libraries and dead stock Articles.

25. The Account of general
inspection performed by Mr.
Mathurapra

Stations with the aid of the
Office is obtained with the exception
of the visited
Six out of
Eight Taluks
and one on
of three Fa
Stations. The
Talukas of
Sirsa and
Honawar were
not visited,
Major David
-son and Harvey
who were tem-
-porarily in
charge of the
Office from 16th
April till
the

the end of the Quarter were changed from leaving Head Quarters owing to the uncertainty of the time of Arrival of their Successor. Mr Matthewsyt has left no explanation of the small amount of inspection performed by them. The Examination of the Accounts & Records of the Catchments showed that they were kept generally in good order & that the Village Accounts and receipts brought no prominent irregularities to light.

26. Registration.

There are nine Sub Registry Offices in the District. Six were Examined by Mr Matthewsyt and 5 & 4 respectively by the 1st & 2nd Assistants

Assistant Collectors in their General Charges. The prescribed Inspection reports were sent as usual to the Inspector General.

27. The destruction of useless records

Talukas.	Revenue Mapi Miscellaneous Territorial Memoranda			Years.

Total.	227.	103.	9.	

has been carried on to the extent shown in the table above. The number

of "Daftars" destroyed in 1339 as against 392 in the previous year: in the presence of the 1st Assistant Collector 191 and of the 2nd Assistant Collector 148, at the time they inspected the General Manuscript Records Offices. Pending the Completion of the Survey Settlement it has been found necessary to exercise the greatest caution in tearing up Revenue papers. Now the work is over, vigorous steps should be taken to get rid of all papers that can no longer be of any use

C. Special measures.

28. Settlement.

The sanction of Government to the introduction of the Survey Settlement into the 81 remaining villages

villages of Sidhpur Taluka were
Conveyed in Resolution No. 3218 dated
9th May 1890, and the rates were fixed
out in the same month by Mr. Wingate
the Settlement Officer. The result has
been an increase in the Land Re-
-venue from Rs. 34381 to Rs. 48969 or
42.4 per cent. This enhancement
is chiefly due to the levy of
Assessments on encroachments
which had hitherto escaped. The
lands were divided into two
Groups or classes, the maximum
rates approved for which are 12
and 10 annas per acre respectively
for dry crop and Re 1 + Re 0. 8-. per
acre for rice land. The maximum
garden rate is Rs. 4 per acre.

N. H.

With the introduction of the Survey into the above villages, the Survey and Settlement of the entire district has been completed. Survey operations have been going on since 1863 and from that year till 1871, the Supa Taluka Division, the Pethas of Mundgod and portions of Sirsi and Haliyal Talukas were alone settled. The rest of the District has come under Settlement subsequent to 1871. The cause of delay is chiefly climatic, field operations being quite impracticable during the regular portion of the year. There were also opposition on the part of the Chief Landholders who claim to hold under a permanent

Settlement

settlement. Suits were filed in the District and High Courts contesting the right of Government to revise the existing assessments but these resulted uniformly in favor of Government. At the time of transfer from the Madras Presidency, the land revenue of this District was Rs. 6,57876. It now amounts to Rs. 9,68408. an increase of Rs. 3,10,532

29. Alienation Settlements.

These were all made by the Madras Government. The sum of Rs. 76. 15. 3. representing the assessment on lands held by the Sanyasi Matt of Sankaracharya, and hitherto annually remitted, was commuted into a cash payment during the

year under report by order of Government and the full assessment levied from the lease holder.

30. Waste lands.

Figures showing the area of Cultivable land in the District, the land brought under cultivation during the year, and the Cultivable land lying Waste at the End of the year are given in the marginal statement

Cultivable waste land lying waste at the end of the year	Fallow land in the year	Cultivable waste land remaining uncultivated at the end of the year	Percentage of cultivable waste land remaining uncultivated to the total area in Plan.
1888-89	1859-60	18000 Ac. 180 Sq. Yds.	18000 Ac. 180 Sq. Yds.

Total.	1618. 9. 4.	1057. 20 4.	65369. 4 6.

The area of land brought under tillage is less than last year by acres 368. 7. 8. The lands thrown up also shew a decrease of acres 558. 20. 12. The area for the year

under rehabilitation 1059. 22. 4. and

Akola for the year before 1618-3-

The chief cause of retarding improvement

is the difficulty experienced by land

-holders in finding tenants and

labourers especially for the culti-

-vation of lands situated in re-

-mote forest localities as remarked

in a previous paragraph. The better

class of lands is seldom or never

abandoned.

31. Special Experiments.

None were attempted. The

First Assistant Collector was

directed to carry out two ordinary

crop experiments are suggested

by the Director of Agriculture.

One in the coast Talukas and the

After

After his Visit above stated he proceeded on duty the former only as the crops were already harvested when his duties took him above-stated. The Second Assistant Collector was also instructed to conduct two ordinary experiments one in early rice in Supa and one in late rice in Kánara Taluka. He explains that though he made every endeavour, he was unable to carry out either experiment, because the crops in Supa were cut & carried before he could get there and because during the hot months he was engaged for six weeks in learning Classing and Surveying under Mr. Wingate.

I trust these explanations may be considered satisfactory. Above ghauts the rice crop is mostly harvested by the beginning of November and it is unsafe for Europeans to camp in those parts so soon after the rains. The Director of Agriculture has recognized the almost insurmountable difficulties in the way of making Special Crop Experiments in this District.

32. IV Civil.

No suits were instituted for or against Government in the Civil Appeal sanctioned by Government Resolution No 4074 Dated 6th June 1889 - Gopi Mahableshwerbhat

Across

vested the Assistant Conservator
of Forests. The District Court modified
the decree of the Subordinate reducing
the damages awarded from Rs 1500
to one Rupee ordering both parties to
bear their own costs.

Under Government Resolution
No. 1777 of 5th March 1890 an applica-
tion was made unsuccessfully to the
High Court respecting a pauper suit
disposed of by the Subordinate Judge of
Sirsi in which he had omitted to
make any order for payment of the
Court fees to Government.

33. Mamlatdars' decisions
under Bombay Act III of 1876
were supervised to the Extent
noted in the margin.

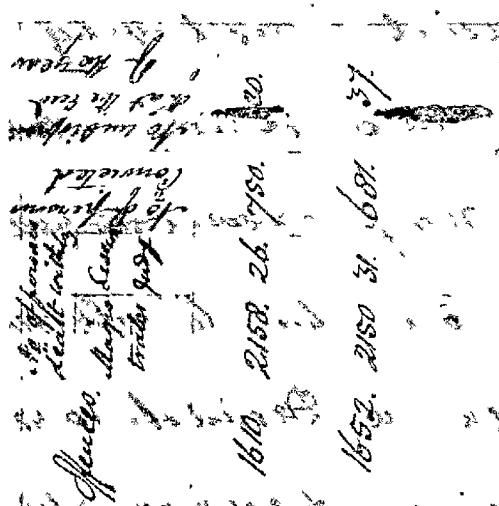
The number of cases disposed of this year is 12 less than last.

Year.	No. of Cases	Number of Cases examined	Evidence from Court Room	Depositions
1889.	90	67.	21.	26.

Twenty one cases were referred to the Collector by the Assistants but only slight errors of procedure were discovered. It has been pointed out that only serious mistakes should be reported and that Assistants themselves can well rectify minor irregularities. It appears that the work was well done and that little recourse had to the Act in this District.

V. Magisterial.

34. The general State of Crime and the action in it by the Magisterial Authorities are shown in the margin.



There was a slight increase in the number of offences over the previous year - chiefly under Rural and under Special & Local Laws.

Most of the Crime committed consisted of minor offences against persons or property. Cases of heinous Crime were rare. There was only one case of murder brought before the Courts, but the investigating Magistrate discharged the three accused

accused persons. There were nine
decisions or one more than in the
preceding year. None of them presented
features of special interest or signi-
ficance. They were committed
by outsiders nor professionals. The
victims used to be chiefly pilgrims
passing through the District to or
from the shrines at Gokarn and
Tulvi. They now perform the journey
by Railway and Steamer and so
avoid the dangers that formerly
beset them. The total number of
offences reported during 1889 is 1718.
as contrasted with 1705 of the
previous year. It appears from
these figures that there is the usual
fluctuations occurred in the
General Kind of Crime, there is
little

little noticeable difference in the
two Years. The percentage of con-
victions was 2.15 th. lower than in
the preceding year.

35. The Exercise of the District
Magistrates' Jurisdiction has been
to the Extent shown in the margin.

Year.	No. of Cases Originally Entered.	No. of Cases Confirmed on Appeal.	No. of Cases Modified on Appeal.	No. of Cases Reversed on Appeal.	Remarks.
1888.	1,118	29	13	7	Sentencing Cases Omitted in the Returns.
1889.		29	11		

The cases were
heard not
appeals heard
by the District
Magistrate
Lincoln
during the
year. All
appeals
were disposed of by the Sub Divisional
Magistrates who had also the
Appellate

Appellate powers. In all cases the District Magistrate sent for and examined the records & proceedings of cases tried or complaints disposed of by Subordinate Magistrates - 29 on a scrutiny of the Criminal Calendars: 7 on petitions from parties interested; and 3 on the motion of Sub Divisional Magistrates. In seven cases, further enquiry was ordered under Section 437 Criminal Procedure Code.

36. The Village Police are under the direct control of the District Magistrate, no powers having been conferred on the District Superintendent of Police under section 4 of Bombay Act

trate during the year. Of the 818 pupils
674 can read and write and the
remainder are illiterate. In two
cases the Conviction and sentences
of Police Patels were quashed by the
High Court in Revision.

37 The visitation of the District

Jail

Jail Audit Inspection of 1887 was duly performed. Quarterly Meetings were held in August and October 1889 and March and June 1890. There is one Sub-jail in the District at Kaliyal which was not visited by my predecessor Mr Blatherwayt. His tour last year did not take him into

Kaliyal Taluka	25.	By Hon'ble Mr. Justice Ranade C.I.E. Judge of Appeal Court & Hon'ble Mr. Bhimbhai Meherban Desai Assistant Collector & Magistrate Kaliyal Taluka.
Dharwar		
Gadag	46.	
Betgeri		
Hangal	9.	
Shiggaon		

in charge of the Taluka, and regularly visited by the Local Magistrates. The Sub-jail is

merely

30. The Working of the Cattle Trespass

The total number of Cattle impounded was less by 2705 than last year, and receipts show a corresponding decrease. No particular reason is given for this, but it is probably assignable to greater vigilance on the part of the forest guards in preventing Cattle from trespassing

Year	No. of Cattle impounded.	Amount.	Expenses connected therewith.	Net amount.
1899-90.	52.	1158. 12. 3	87. 1. 4	1251. 7. 5
1900-01.	52.	1428. 13. 7	46. 14. 5	1475. 7. 7

...ric the Taccolo. Five Cattle pounds were inspected by the Collector and the Registers Examined. From the reports of the Salaried pound-ing Officers, it appears that the pound Keepers did their work well. Only one was fined for neglect of duty.

39. Arms Act.

The number of licenses issued for Carrying Arms was 1434. being 323 more than last year. The prac-tice of handing Confiscated guns to poor cultivators for the protection of their crops during the cultivating Season has been continued. The number of licenses does not re-present the actual number of guns in the hands of the population

A heavy tax usual in this District

to grant licenses

to land holders

for a certain

number of

trees and to

enter the

names of the

tenants who

he wishes to

use them as his "reclaimers" in the form.

The licensee may be in one place, while

the actual possessors of the trees, are

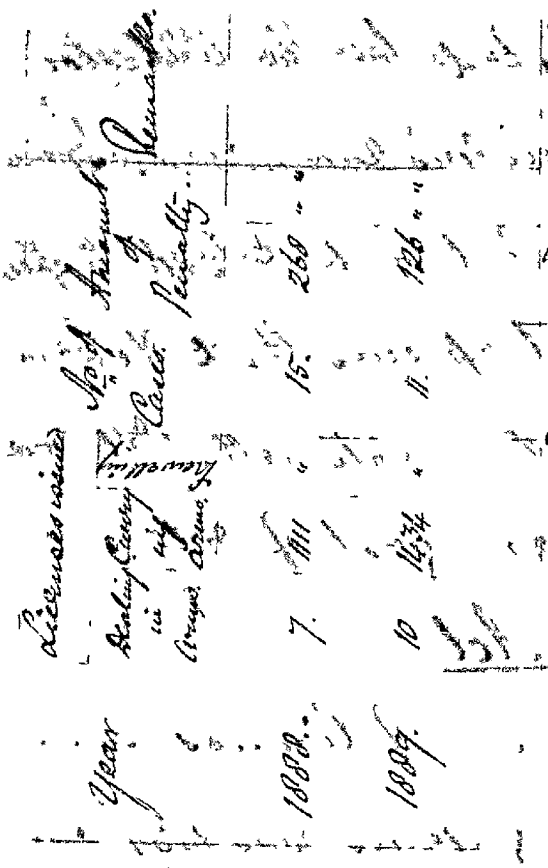
in several other places possibly at long

distances. If called on to show their

licenses they refer the enquirer to their

land lord. The inconveniences of

this system are so palpable that



licenses only. The person who uses
the gun. The number of licenses to
be increased but mistakes will be
rendered impossible and the
actual number of guns will be
probably rather less than more.
The circumstances of this District
are such that liberality in giving
licenses to bonafide cultivators
for protection is right and necessary
But it seems that a considerable
reduction might be made with
advantage in the case of notorious
pot hunters. There is strong sus-
picion that ammunition is smug-
gled over the goa frontier into this
District & some extent, since holders

9

of gun licenses in villages bordering on the frontier purchase no ammunition from the licensed vendors on this side. I propose carefully to revise such licenses at the next opportunity.

VI Public Works.

40. The District Local Board held two meetings on the dates noted in the margin.

Meetings	Date	No. of members present
Budget meeting	25th November 1887	6.
Half yearly.	4th June 1888	8.

At the first the Budget was passed and at the second general business was disposed of. A grant was sanctioned towards the cost of two additional vaccinators supplemented by contributions from the Municipalities of Kamla, Julija &

Artificial and Local, and some
important lines of road hitherto
under the control of the District
Board were made over to the
Public Works Department for
maintenance. Much difficulty
is found in getting the members
of the different Boards to take
real interest in their duties. With
the notable exception of the
Narayenrão of Honawar, none
are very favorably noticed. The
head of a Standing Committee
of the District Board at Karwar
to conduct business details during
the absence of the President on tour
has long been felt, but there are
not sufficient members resident

at or near Kanwar to form a Committee. In the triennial Elections and nominations which will occur next year Selections will be made keeping this object well in view.

The Receipts & Expenditure during the year 1889-90 are given in the following table.

Receipts.	Amount.	Expenditure	Amount
Balance on 1st April 89.	35786 3. 10.	Establishment	6535 15 2.
Net proceeds of Excise under Abkary Act 1876	41025 7 5.	Office Do.	297 4 6
Do. Road Cess	5510 1 "	New Works	9547 4 10
Do. Ferry Do.	1686 2 3.	Repairs	3250 14 5.
Rent Do.	13 16 12.	Roads & Plant	284 9 6.
Contributions	6822 " 4.	Contributions for PWD.	2032 2 7.
Miscellaneous	5038 15 1.	Medical charges	7190 3 5.
		Miscellaneous	4578 13 6.
Total	109364 11 1.	Total	65650 3 11.
		Balance	43714 7 2
			109364 11 1.

41. The principal objects of ex-
penditure were as shown in the

| Original | | |

repairs amounted to Rs 2357/-
Special repairs were carried out
in several Dharmshalas and a
few new ones were built. The allot-
ment for road repairs absorbs
a large portion of the funds and is
indispensable owing to the annual
damage caused by the heavy rains
The expenditure on roadside trees
is mostly for watering & fencing
trees already planted. In addition
to this a sum of Rs 166. 4. 6 was
spent on Provincial road trees
from the annual Provincial grant

42. Provincial Works.

None of any great importance
were undertaken during the year
Excepting the Mahalkheny's Culchery

ab

at Khaleal Costing Rs 15000 also
is under Construction

The total mileage of all the
Provincial roads in the District
is as follows:

	miles
1 Roads bridged & metalled	228.
2 Fair weather roads	747.
3 Navigable rivers	84.

There are no navigable Canals.
The S.M. Railway passes through
15 miles of the northern part of
the Sup'á Pettha and has two sta-
-tions within the limits of this Di-
-trict. Margao in Goa territory
is the nearest station to Karwa
- only 44 miles distant. The com
-pletion of the road between the
two places would be a great be

to the inhabitants of both. Only about 7 miles of the whole length are in British limits & so far the road is in good condition & can easily be made so. But a great deal remains to be done on the other side, & from what I hear it is doubtful whether the work will be carried to completion for a long time to come.

The Expenditure by Civil Agency on Revenue buildings under 1000/ Amounts to, Rs 192. 7. 5. as detailed below.

	Rs
Ankola Mamlatdars Kutchery	133. 3. 8.
Khalsa Kutchery	28. - 2. -
Bungalow Haliyal	31 1 9
	192. - 7. 5

Three new police stations costing Rs 2010. 8. 6 were Constructed by the Superintendent of Police and repairs to existing police stations Cost Rs 622. 15. 4.

VII Municipalities.

43. The number of Municipalities remained without change i.e. four permanent and two temporary. Mr Blathwayt visited the Municipal towns of Kanwar, Kunta, & Sirsi. The Conservancy arrangements appear to be fairly satisfactory except in the matter of Scavenging. Indigenous halalcores are few and much difficulty is found in inducing outsiders to come to this District. I have nothing unfavorable to report

are the general management of
affairs by the Municipal bodies
The non official Presidents of Kannur
Kunnur & Tirur & the Vice President
of Palghat Column Discharge their
functions with efficiency. A want of
vigour & energy in the Colonel of
officers is observable, but that is
to be expected. Where the head of the
Municipality is occupied with his
own personal business & has little
time & fire & the public & where the
remaining members are quite con-
tent to let things slide. The Presidents
of Kunnur & Kannur are Vakils, &
he of Tirur is a merchant - While
the Vice President of Palghat is a Carpe

Land holder. Government have sanc-
tioned the Establishment of Sanitary
Municipalities at Bhatkal and Honawar.
And the new Boards will begin work
from 1st October. In both cases for the
present at least the Assistant Collec-
tor in charge will be the President.

Returns I II & III will follow

VIII Education.

44. The principal statistics re-
lating to Education are given in
the margin. The statement was
furnished by the Educational
Inspector S.D. The number of Se-
condary Schools is unchanged,
but Local Board primary Schools
are fewer by one. The average attend-
ance at the Kumar High School
has increased from 193 to 252

The remainder of boys who appeared for the Matriculation Examination were by oversight passed. Two boys have been admitted to the

Secondary Schools	Training	Elementary	No. of Schools	No. of Pupils	No. of Schools	No. of Pupils	No. of Schools	No. of Pupils	No. of Schools	No. of Pupils
No. of Schools	1	1	190.	232.	54	43	166.	145.	24.	24.
No. of Pupils	68	68	68	68	68	68	68	68	68	68

of Municipal and Local Board Secondary & Primary Schools of £54 & £88 respectively. The Chief cause is doubt less the abnormal unhealthiness of the season and probably the vaccination of the list of free scholars had something to do with it. The number of boys attending the Local Board Schools was 836 against 969 of the previous year. The number of Local Board aided Schools was 18 with an average attendance of 415 pupils. There are 8 girls Schools Equally divided between the Local Boards and Municipalities with an average number of 511 pupils against 581 in the preceding year. Some few girls

attend the boys' schools and the total number of girls receiving instruction in both kinds of schools was 1540 against 1615 last year.

Mohamedan Schools are as last year but the attendance has fallen from 1055 to 1011. Two boys were endowed with scholarships amounting to Rs. 5/ per month from the Karimi Shabuddin Fund.

There are three schools only in the District for low caste children and the attendance is about 63.

The attendance in the Sanscrit School at Gokarn fell from 36 to 22. Mr Blatherwyck visited 17 Schools.

The following is an account

of the Funds administered by the District Local Board Committee.

Receipts	Amount	Disbursements	Amount
Balance on 1st April 1869.	2626 6 6	Collection-Establishment	
School fees	495 4 10	Supervision-Establishment.	
One Anna Cess	1726 2 2	School charges	3578 14
Contribution from Government	1609 2 8	School houses (Cess)	1546 1 4
Do Private	304 " "	School repairs	117 13 6
Do Municipal	" " "	Scholarships	27 " "
Miscellaneous	209 1 "	Grants in Aid	
		Apparatus	1125 " "
		Miscellaneous	" " "
Total	5426 1 2		3956 12 1
		Balance	1874 6 4
		Grand Total	5426 1 2

Special duties.

45. During the year Mr Blatt-
-way presided over a Committee
appointed by Government to e

purpose rules relating to certain forest matters. The Committee sat at Pallapur and the rules were drafted & submitted to Government.

46. Concluding remarks.

It is needless to comment on the meagreness and unsatisfactory character of this report. Personally I have no knowledge of the District except from hearsays. My Assistants are not much better informed, and I cannot truthfully say that I have derived much help from the notes left by Mr Chathoupadhyay. In conclusion, there are two subjects affecting the welfare of the District on which I think

I ought to touch the first is the undesirability of keeping open communication by sea with the outside world during the monsoon months. This can best be done by inducing the B.I.S.N Company to let their Steamers call at the principal ports on the Coast once a week or even once a fortnight. No other line completes with them. I can aware that Government have offered the Company a liberal reduction in the payment of Port dues and that the latter are reluctant to accept the conditions unless the reduction is allowed all the year round not for the monsoon months

only. Probably it was consi-
-dered that a similar concession
would have to be made to the
Shepherds' steamers and the
negotiations fall through. I think
however that a difference is
perceptible in the two cases. A
strong inducement is needed
to get the B.I.S.N Company's ships
to stop at all, while Shepherds'
boats are anxious to do so when-
ever the weather permits. Perhaps
the difficulty might be solved
by offering a slightly less liberal
concession to the Lower Company
for the entire twelve months and
extending the same indulgence
to the smaller. It must not be

four trees

steamer that at present no
direct steamers are fixed by the
B.I.S.N Company. Possibly the Mail
steamers might be so adjusted that
the smaller tonnage of the bigger
vessels would compensate for
the loss caused by the abandonment
of dues on the lesser ones. In
whatever way the arrangement
might be effected the concession
would be a boon to the people of such
places as Kanara and
Ratnagiri — Especially of
European residents there —
Can be adequately appreciated
only by those whose lot
it has been to be shut up
in either place for one or more

seasons

Secondly. The other subject mentioned in the expediency of extending the Telegraph System from Kiuta on the Coast to Simsi in order to bring the Abeokuta trade into more direct communication with the Head Quarters of the District - 70 or 80 miles away. At present messages to places over the Shabo Hill to be sent by road from Kiuta causing much delay, and inconvenience. It seems likely that the extension would pay, but in any case, from an administrative and police point of view there is no doubt

P

of it's necessity. I trust that Government will be pleased to guarantee the small sum which the Telegraph Department may demand, before carrying into Execution the Suggestions which have already been made to them on this subject.

I have the honor to be
Sir,
Your most Obd.t Servt

No. II.

the Kanara District during the year 1889/90.

Advances	Realizations for Sinking Fund for payment of Loans	Total amount of year's yield and balance	Total income of year, including balance	Incidence of taxation (column 13) per head of population	Incidence of income (column 16) per head of population
		11,60,513 9	14,582 3	0 8 5	0 13 9
556		16,393 7 3	28,120 5 4	1 1	1 8 8
		1,11,791 4 1	17,510 15 2	1 5 10	1 15 9
		7,226 6 2	9357 11	1 3 4	1 4 11
		14347 1	3962 2 9	Temporary Remission	
		9,16,403	4575 0 6	Debt	

Police Patil of		No. of cases decided	Police Patel of		No. of cases decided
Gadag Taluka	Mulkoti	1	Karagod taluka	Guttal	1
	Mulgund	1	Kod Taluka	Kaginelli	1
Dharwar Taluka	Dharwar Cheth	3	Navgal Taluka	Alur	2
	Bettigeri	1			
Karagod Tal.	Navanur	1		Total	11

The total number of cases decided was 11. These persons appear to have exercised their powers satisfactorily in disposing of petty sanitation cases, but I should be glad to report more general interest in a subject of such importance. No doubt the introduction of the Village Sanitation Act will create more interest in the subject
